Dear Jim

I would like to thank you and the club for all your hard work in delivering a very successful and enjoyable summer holiday programme for children and young people with disabilities in partnership with myself and my team this year. I am really looking forward to working with you in the future to further strengthen and develop this section of the club.

The feedback that I received from all parents has been extremely positive and they were delighted with the clubs summer sessions and with all staff members involved. The sessions have had a massive positive impact on the children who attended as parents have described improved levels of confidence and independence in their children gradually throughout their participation during the summer. The parents and children have shown a great interest in continuing their participation in the new disability term time session on Friday evenings at the club. I have also had feedback from parents who currently attend the Friday class and they have praised all coaching staff for their caring and understanding natures when it comes to their children's needs and also their coaching ability which has evidently helped their children gain skills that was once unimaginable by their parents.

I can't thank you and the club enough for your passion and commitment. I will be in touch soon to arrange October half term sessions.

Thank you

Yours sincerely

Stacey Addison

Cultural & Equalities Development Officer
